6 Conflict Quick Tips

1. **Address issues quickly.** If you have an issue with someone, go quickly and talk to them rather than allowing the issue to grow.
2. **Use “I feel” statements.** When talking about what you’re experiencing, talk about yourself. Say, “I feel frustrated when . . .” instead of saying, “You make me mad.”
3. **Listen to what’s not being said.** Tone and body language are huge indicators to pay attention to. Also, what words aren’t being said? Listening well is a big deal.
4. **Communicate in person.** Avoid email or text messaging through difficult conversations.
5. **Get advice.** You may need to follow up with your ag Instructor, Guardian or Community Leader for wisdom.
6. **Be introspective.** Is it possible that you’ve somehow caused the conflict?
